

At Innovel, we strongly believe that the true effectiveness of an expense management solution goes beyond its initial implementation. Instead, it ought to adapt continuously to meet the needs of an organisation and its people, consistently delivering value over time.

## IS YOUR INITIAL IMPLEMENTATION OF CONCUR EXPENSE IN LINE WITH YOUR EVOLVING BUSINESS GOALS?

Innovel's Health Check service is designed for SAP Concur Expense customers of all sizes, providing a comprehensive evaluation of your current setup. Our expert team will conduct an unbiased and detailed assessment of your system, identifying areas of strength, weakness, and potential for improvement. This **FREE** service covers everything from existing issues to configurations and business processes, offering practical recommendations to enhance your system's performance.

### KEY FEATURES

- Recognise how SAP Concur functionality supports your business objectives
- Identify best practices, resources, and investments necessary to optimise your SAP Concur Expense solution
- Analyse the current system configuration to identify both areas of alignment and areas that can be improved, as well as the existing pain points
- Comprehensive summary document (Word or PowerPoint) which includes key findings and recommendations in line with SAP Concur best practice
- As an accredited partner of SAP Concur, we possess the expertise to combine our in-depth understanding of the systems with our extensive track record of successful implementations spanning various industries

### OUR PROCESS

In order to successfully fulfill the client's needs and carry out a productive Health Check, our approach consists of three steps, which can be completed within an estimated timeframe of three to five weeks.
